CAREER OBJECTIVE

A motivated and detail-oriented AI and Data Science student skilled in Python, Power BI, and Tableau. Passionate about continuous learning, teamwork, and applying data-driven solutions to real-world problems. Looking for opportunities to contribute expertise and grow with a forward-thinking organization.

EDUCATION

Francis Xavier Engineering College, Tirunelveli

B.Tech: Artificial Intelligence and Data Science

Sri Ramakrishna Matric Hr. Sec. School, Alangulam

HSC, SSLC

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python
- **Frontend:** HTML, CSS, JavaScript
- **Analytics Tools:** Power BI, Tableau
- **Libraries:** NumPy, pandas, scikit-learn, Matplotlib, Seaborn
- **Other Tools:** VS Code, MySQL Workbench
- **Soft Skills:** Teamwork, Time Management

PROJECTS

- **COVID-19 Analysis Dashboard:** Developed using Power BI to provide clear insights into the pandemic's impact of COVID-19.
- **Digital Lost and Found:** A web-based application that helps users report, search for, and track lost and found items efficiently.
- **Diabetes Prediction Model:** A model that predicts diabetes in patients using past dataset.

INTERNSHIP

Machine Learning Internship - Zavicoa AI Solutions

- Explored machine learning algorithms and their practical applications.
- Performed data preprocessing and exploratory data analysis using Python.
- Built and evaluated predictive models using scikit-learn.
- Improved understanding of model performance, accuracy, and data-driven problem-solving.

CERTIFICATIONS

- Data Analytics Masterclass - **Novi Tech**
- Career Essentials in Generative AI - **Microsoft and LinkedIn**
- The Joy of Computing using Python - **NPTEL**

CO-CURRICULAR ACTIVITIES

- Paper presentation: "AI Home Monitoring System" - G.U. Pope College of Engineering Symposium, 2024
- Data Analytics Competition - SRM Madurai College of Engineering Symposium, 2025
